

We Need a Town Hall Meeting, Mr. Rouzer

Letter to the Editor, Brunswick Beacon, 11.11.2021

I wonder how many Brunswick County residents know that our U.S. Congressman David Rouzer was in Leland this month? He spoke at the Compass Pointe Conservatives Club on October 4. It wasn't open to the public, but I know some people who went. His appearance flew under the radar and was not publicized anywhere that I could find.

I was front and center for Mr. Rouzer's last Town Hall Meeting — four years ago. He'd scheduled it during weekday working hours, in a relatively obscure location. Hundreds of people like me were determined to attend despite his efforts to deter us. He was clearly unprepared for the huge turnout and pointed questions. Well, that was that. No more town halls for our so-called "Representative."

I am very disappointed that Mr. Rouzer is too cowardly to speak in an open forum to his constituents, whether or not they are loyal followers. He is fond of one-way communications via his newsletter and social media. But he is supposed to answer to the residents of District 7, all of us.

Maybe he's too busy making sure he's in line with Trump's Republican party? It's time-consuming to try to prove fake voter fraud, raise money for themselves, and rig future elections. Avoiding voters and plotting to remain in power, versus actually governing, seems to be the hallmark of most Republican politicians these days.

Prove me wrong, Mr. Rouzer, and schedule a Town Hall Meeting!
